

# DMC Power Swage Tool

**DMCPower**  
Next Generation Power Connections

## QUICK FACTS

### APPLICATIONS

- Bus
- Cable
- Grounding
- EHV
- Full Tension

### PROCESS

- 360° Radial Swage
- Cold Welded
- Up to 115 Tons of Pressure

### POWER SYSTEM

- 10,000 psi Hydraulic

### WEIGHT

- As light as 30 pounds

### CERTIFICATIONS

- ISO 9001-2008
- IEEE 837
- UL467
- UL486A
- ANSI C119.4

## 360° SWAGING POWER

### SUPERIOR QUALITY

Constructed from solid material for maximum strength and reliability

### SAVES TIME

Consistently install connections faster than other methods

### ALL WEATHER

Operates in freezing temperatures, wind, snow, rain & heat

### IMPROVES SAFETY

No open flames or special safety equipment required

### LOWER TOTAL PROJECT COST

Reduce labor expenses, set-up costs and downtime

### INSPECTABLE QUALITY

Easily and immediately verify Swage with "Go/No-Go" Gauge

### EASY TO USE

On site training gets crews Swaging in as little as 15 minutes

### CONSISTENT RESULTS

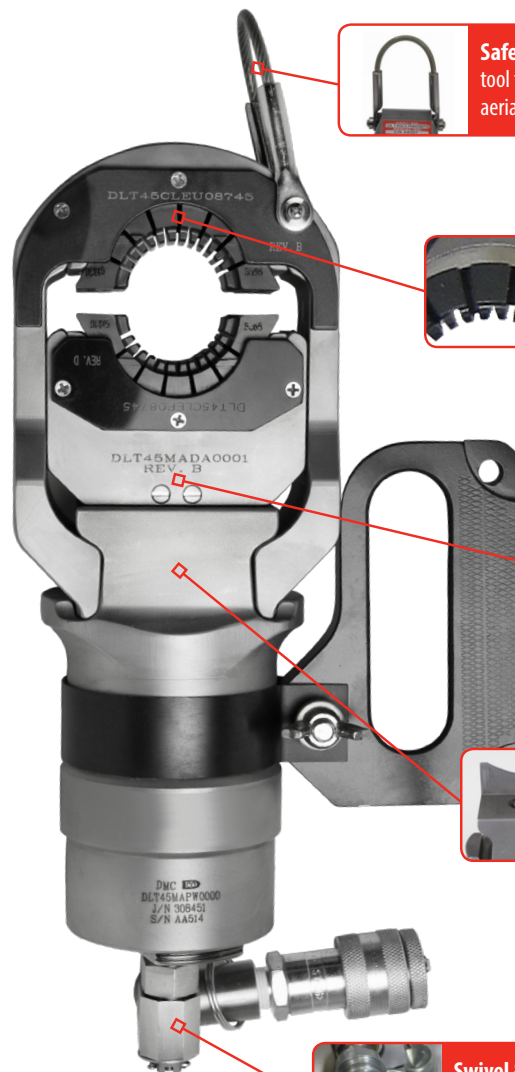

One button operation produces quick and repeatable results

### EASY MAINTENANCE

Few moving parts and easy die removal for cleaning and lubrication

### MULTI-PURPOSE

Single tool can be used for various cable, bus and grounding applications

**Safety Lanyard** tethers the tool to your jig or boom for safe aerial installations

**Flexible dies** provide up to 115 tons of pressure around the entire connector

**DieBlock** secured with quick-release pins or set screws

**10,000 psi hydraulic power** unit produces consistent and repeatable Swages

**Swivel & Quick Disconnect** allows for field friendly maneuverability with fast set up and breakdown of tool

**Contact DMC POWER to learn more about  
PURCHASE, RENTAL and LEASE options**

### **KIT INCLUDES**

- Swage Tool
- Die Set
- Hydraulic Pump

- Hydraulic Hose
- Inspection Gauge
- Swage Lube
- Carrying Case
