

PROJECT RECAP: ACSS TRANSMISSION SUCCESS

A major utility in Texas utilized the **DMC Power** Swage connection system as a trial installation to verify the benefits and cost savings associated with the **DMC Power** Swage Technology.

The **DMC Power** ACSS Swage transmission connectors performed better than advertised!

PROJECT HIGHLIGHTS:

Dead End Connector Installation: **2x Faster**

Jumper Terminal Installation: **5x Faster**

Splices: **~\$40k in savings** by pulling through the rollers

Bus Terminals: Over 25 hours of additional outside labor eliminated.

Project completed 1 week ahead of schedule.

“A Major Reduction In Total Project Cost”

The **DMC Power** Swage System has been proven time and time again to
Lower Total Project Cost!
